Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The frame house is a two-story frame structure constructed in a rectangular plan. It has a four-bay by two-bay main section and a one-story, full-length rear addition. The main facade is symmetrically arranged with a double entrance centrally located under a two-bay, one-story entrance porch. Window and door ornamentation includes plain architrave with crossettes, pointed-arch cornice, and round-arch upper panes. The structure has a fieldstone foundation and a gable roof. The date of construction is mid-19th century.

The property is located on the north side of Sandy Hook Road, approximately .03 mile east of Clark Road, in Sandy Hook. The house sits slightly back from the road. The main facade faces south.

The two-story structure is constructed of frame covered in asphalt siding. It is constructed on a fieldstone foundation. The main facade is symmetrically arranged with entrances in the center bays and two-over-two sash windows in the outer bays of the first story and four bays of the second story. The entrances have doors with upper windows and two panels below. The door frames include two-pane transom, plain architrave with crossettes, and pointed-arch cornice. The window trim is similar and includes round-arch upper panes in the two-over-two sash. There is a two-bay, one-story front porch with a hipped roof. The porch is supported by square posts with a cut-out railing and bracket ornamentation with pendants. The gable ends have two windows on each story and two single pane windows in the gable. Windows trim on the gable ends have plain trim. The gable roof is covered in sheet metal. It has a boxed cornice and interior-end brick chimneys rise from each gable end. The one story rear addition has a shed roof and has two-over-two sash windows in the bays.
